CommuniCare provides health care services to about one in every nine residents of Yolo County.

CommuniCare Health Centers' mission is rooted in the underlying philosophy that health care is a right, not a privilege. Our mission is characterized by the following commitments:

- We provide comprehensive and high-quality health care to anyone in our community, regardless of insurance status or ability to pay.
We deliver health care in a supportive, safe environment emphasizing patient partnership, wellness, and preventive health in all of our services.
We invest in employees, learners, and volunteers at all levels of the organization, as they are the foundation and heart of the work we do.

CCHC provides the following services: Primary care, behavioral health care, and dental services.

Primary care programs include:

- Family Medicine
Pediatrics
